

K-ZFQ L-type Automatic Sealing and Cutting Shrink Packaging Machine

上海昆布包裝機械有限公司

Characteristic:

The machine is full automatically without operator, just put the products into the conveyor, finish transport, sealing, transport by photo electricity induction automatically. It also can be connected with production line, reach no-operator produce in word and deed, save time, save energy. PVC, POF, PP, PE is available in sealing and cutting.

Technical Parameter:

Machine Dimension L×W×H (mm)	1665×850×1380
Max packing dimension L×W×H (mm)	550×450×120
Max sealing Size(mm)	500×450
Net weight (kg)	475
Power	1.3kw
Working Efficiency	1500-1800PCS/H
Voltage	1ø220V 50/60HZ
