Automatic Round Bottle Labeling Machine

Applicable to all kinds of cylindrical object stickers, small taper round bottle labeling, such as xylitol, cosmetic round bottle, wine bottle, etc. Can realize the whole week/half week labeling, the circle positive side of the label, the back mark spacing can be adjusted arbitrarily.

Widely used in food, cosmetics, chemical industry, medicine and other industries. It can be equipped with a circular positioning detecting device to realize the circular positioning labeling. It can be used for color tape and printer, printing and producing batch number and other information, reducing packaging process and improving production efficiency.

Parameter:

- Labeling accuracy of 0.5mm
- Pasting speed of 20 ~ 35 pieces/min (related to product size)
- Apply the product 15 mm ~ \varnothing diameter of 160 mm
- Applicable label size: 20mm ~ 380mm; Width: 20mm ~ 220mm;
- The size of the whole machine is about 920mm x 470mm x 500mm (length x width x height).
- Power supply 220V / 50HZ;
- The machine weighs about 45Kg
- Apply labels \varnothing inside diameter of 76 mm
- Apply \varnothing label diameter 240 mm
- Voltage is 220 v
