

HM-100A Automatic Transparent Film Three - Dimensional Packaging Machine

The machine is mainly applied to the pharmaceutical, food, health care products, cosmetics, audio and video products, and other industries square boxed items appearance decoration packaging. (CD) CD, playing cards, transparent soap, square battery, floppy disk, etc. played a role in the anti-counterfeiting, moisture-proof, the use of anti-counterfeiting, And improve product quality, increase the value-added products. The machine can be linked with the carton production.
The model: according to customer requirements to increase the type

Product description:

1. Compact and reasonable structure, stable performance and advanced, easy operation and maintenance;
2. Using multi-function digital frequency converter, stepless speed change;
3. Mold replacement is convenient and flexible;
4. With automatic feeding, automatic counting and other functions;
5. Transmission part of the various types of protection devices and fault tips;
6. With test machine to send the film clutch, do not waste packaging materials.

Product parameters:

Packing speed 60-120 boxes / min
Packaging materials BOPP smoke film and anti-fake gold pull line
Packaging size 50-230mm wide 20-120mm high 10-60mm
Equipment size 2000 × 790 × 1550mm
Equipment weight (about) 650kg
Total power 4.5kw
Voltage 220V / (50Hz)
