

DPP-88A Small Automatic Blister Packing Machine

The small blister packing machine is special for small pharmaceutical industry and hospital. The machine adopted micro computer control system, frequency speed changing which is suitable to pack ALU PVC, ALU ALU, PVC PAPER material packaging. The machine meets GMP standard and easy to operate.

FEATURES

1. The travel scope is adjustable, and the mold is located in the groove for easy mold changing.
2. Automatic feeding system, and the mold and feeder can be designed based on different products.
3. It can use easy tearing line pressing device, batch printing device and waste collecting device.

TECHNICAL PARAMETER

Model	88A
Cutting Frequency (times/min)	10-40
Output Capacity (pcs/h)	2000-4000
Travel Scope (mm)	40-100
Max. Blister Size(mm)	100×80×20
Air Consumption(m ³ /min)	≥0.36
Voltage	220V 50Hz 4.5KW
Plastic Film (mm)	110×(0.15-0.5)
Aluminum Foil (mm)	110×(0.02-0.035)
Overall Size (mm)	1700×460×1070
Weight (Kg)	430
