

## HL-series Vertical Type Two Heads Paste Filler Machine

This unit is available for filling cream, paste, liquid products (such as hand cream, hand moisturizer, etc.) It is widely used in cosmetics filling food filling and pharmacy filling and so on. It is the idea filling equipments for domestic and international factories.

### Features:

1. Simple structure, convenient maintenance, reliable drive.
2. Import FESTO cylinder and pneumatic components, guarantee the reliability of the machine.
3. High measurement accuracy, no drip phenomenon.
4. Filling speed, can automatic uninterrupted filling.
5. Adopt imported 316L stainless steel materials, inside and outside polishing, conforming to GMP standards.
6. Feeding style: Normal gravity type.

### Technical Parameters:

Model	Filling volume	Air consumption	Filling machine	Air pressure
HL	5-60ml	15L/min	0-30bottle/min	6Kg
HL	10-120ml	19L/min	0-30bottle/min	6Kg
HL	25-250ml	30L/min	0-30bottle/min	6Kg
HL	50-500ml	45L/min	0-30bottle/min	6Kg
HL	100-1000ml	120L/min	0-30bottle/min	6Kg
HL	250-2500ml	250L/min	0-30bottle/min	6Kg
HL	500-5000ml	428L/min	0-30bottle/min	6Kg
