

Penicillin Bottle Filling Machine

This filling capping machine is suitable for:

A variety of small doses of liquid filling & capping such as oil, injection. Widely used in food, pharmaceutical, chemical industries and scientific research.

This machine is one of the traditional filling and capping equipment, advanced design, reasonable structure, can automatically complete filling and capping process, is suitable for the liquid, such like perfume, syrup, tincture, alcohol, wine a variety of materials such as, and other functions. Can be used stand-alone, and also can be used for filling line. This machine completely accords with the new GMP requirements and EU certification.

Characteristic:

- The parts which contact liquid are SUS316L stainless steel and others are SUS304 stainless steel
- It has intuitive and convenient operation, measuring accurate, positioning precision
- Three knife centrifugal sealing, to ensure the sealing strong and beautiful
- Fully in accordance with the GMP standard production

Parameter:

Filling volume	5-50ml
Loading error	$\leq \pm 1\%$
Rotation (rolling) Cover pass rate	$\geq 99\%$
Production capacity	30-50BPM
	60-90BPM
Power supply	380V/50Hz
Power	2.0 kw
Weight	600 kg
Dimension	2000*1000*1500mm
