

## ***Semi Automatic Aluminum Tube Filling And Sealing Machine MZH-AFT580***

This Tube Filling And Sealing Machine is the main product developed by our company. It is mainly used for filling and sealing materials with metal hose as packaging container.

### **Details introduced:**

1. This Aluminum Tube Filling And Sealing Machine adopts closed and semi-closed filling paste, liquid, sealing without leakage, filling weight, capacity consistency, filling, sealing, printing a complete, suitable for medicine, daily chemical, food, chemical and other fields of product packaging. For example: ointment, hair dye, toothpaste, shoe polish, adhesive, epoxy glue, neoprene glue and other materials of the filling and sealing.
2. The filling volume of the Filling And Sealing Machine is easy to adjust, fast, beautiful appearance, compact structure. The tube holder is adjustable, which can be adjusted according to the size of filling hose.
3. All parts in contact with materials are made of high-quality stainless steel (commonly used 304, medical use 316L). The unique valve body structure, the realization paste liquid dual use, is the medicine, daily chemical, fine chemical and other industries ideal practical, economical filling equipment.

**Technical parameters:**

Filling volume	5-60ml 10 -120ml 50-500ml
Filling accuracy	0.5%-2%
Production capacity	30-50 pcs/min (according to the material different)
AirPressure	>0.8Mpa >0.14M <sup>3</sup> /MIN
Voltage	50HZ 220V
Over diameters	1200 x1000 x 1700MM
Gross weight	220KG
