

ZP-11B/17B Double Rotary Tablet Compression Machine

This fertilizer tablet compression machine is a double-press type continuous automatic tablet press machine for pressing granular raw materials into tablets. This double rotary compression machine mainly used in pharmaceutical, chemistry, foodstuff, electronic industries and suitable for making double layer tablet, such as dishwashing tablet, detergent tablet and fertilizer tablet etc.

We are the pharma press machine manufacturer, if you need this machine, please contact us.

Characteristics:

1. The double rotary compression machine pressure is very high, suitable for press hard forming material,
2. Made of stainless steel, the housing is fully closed. The surface of the rotary turret is covered with a hardened layer so that the turret surface is wear resistant. The machine conforms to GMP requirements.
3. Adopt transparent windows, tablet state can be observed clearly. The windows can be opened, cleaning and maintenance is easy.
4. Machine design is reasonable. Operation, dismantling and maintenance is convenient.
5. The machine can be stop automatic in case of over pressure.
6. All the drive devices are located inside the machine so keep the machine clean.

Technical parameters:

Dies (sets)	ZP-11 (11sets)	ZP-18 (18 sets)
Max. Pressure (KN)	100	100
Max. Dia. of Tablet (mm)	45	30
Max. Depth of Fill (mm)	45	45
Max. Thickness of Tablet (mm)	25	25
Turret Speed (r.p./min)	6-12	10-20
Production Capacity (pcs/h)	3960-7920	10800-21600
Motor (KW)	5	
Overall Size (L*W*H) (mm)	910*1120*1800	
Net Weight (kg)	1500
