

Sy-54 Roll Printing Machine For Syringe

Feature

1. The equipment has functions for sending material automatically, printing, drying, spraying silicon oil, etc to different syringes.
2. The equipment adopts PLC control, Touch screen operation, photoelectric control and imported speed-regulator.
3. The equipment has high-pressure spray gun and tank, using imported spray gun. it is with stable performance and spraying evenly.
4. The equipment adopts roller printing, printing speed is fast, printing line is clear.
5. The parts which approaching the product is made of 304 stainless steel, the convey belt is approved food specified convey belt FDA certification, other parts disposed Anti-corrosion, the equipment would not cause the pollution to the product and clean area.
6. The equipment can realize continuous and normal production for 24 hours.

Technical parameter

Assembling area	1ml	2ml	5ml	10ml	20ml	50ml
Assembling speed	240-260				160-180	120-150
Input	220V-50HZ					
Machine size	340x260x210cm					
Power	2.5kw					
Weight	1100kg					
Air pressure	0.4-0.6MPa
