

JYD G1WG U Type Semi-Automatic High Accuracy Single Head Paste Heating And Mixing Filling Machinery

This product uses compressed air as the power to make the operation more convenient, which is specially designed for hospitals, laboratories, beauty salons, small and medium-sized enterprises, etc. It is very suitable for filling small-meter liquids and pastes. This equipment is suitable for the filling of liquids, ointments, small bottles of hotel shampoo, shower gel and other materials. Users can set the filling capacity according to their needs.

Technical Parameters:

Model:	G1WG-U
Working Method :	Pneumatic,work with air compressor
Filling Category	Paste and Liquid
Number of Filling Heads	One/Double/Multiple
Working Speed:	15-35 Cans/min
Filling Range:	10-100ml,30-300ml,50-500ml,100-1000ml,250-2500ml,300-3000ml,500-5000ml
Filling Nozzle Diameter:	≥4mm
Filling Accuracy:	≤±1%
Hopper Volume:	80L
Working Pressure:	0.4-0.9MPa
Anti-drip function:	Yes
Can be with Heater Mixer	Yes
Power Supply	220V/110V 50HZ/60HZ
