

## YSZ-A Capsule Printing Machine

This machine adopts new movable rotating disc printing equipment. It is characterized by compact structure, small volume, easy operation, convenient replacement, and low noise. It can also be an applicant for printing medicinal products of round, large round, triangle, hexagon and sugar-coated tablets, unpolished polished tablets or tablets with different characteristics and shapes, or irregularly shaped tablets.

### Technical Parameter:

Model	YSZ-A
Capacity	Tablets $\Phi 10 \sim \Phi 12 \text{mm}$ 20-30 Thousand pieces/Hr
	Capsules 0# ~ 3# 2.5-3 Thousand granules/Hr
Velocity of Feeding Disk	16 ~ 22 Times/Min.
Motor Power (kW)	0.37KW
Rotary Velocity (Times/min.)	1400
Voltage (V)	220V 50HZ
Overall size LxWxH(MM)	900x650x620MM
Weight	120KG
