

Auto Cellophane Packaging Machine for Perfume Box GS-25A

This machine is widely applicable to the automatic film packaging (with gold tear tape) of various single boxed articles, such as the medicine, health products, foodstuff, daily cosmetics, stationery articles, and audiovisual products.

Description:

This machine is mainly suitable for pharmaceutical, food, health care products, cosmetics, audiovisual products, such as square appearance decoration items in a box, the packaging industry. Such as PCS, chewing gum, health care products, tea, sugar, condoms, rubber, mosquito-repellent incense, cigarette, tape, VCD discs (CDS), playing CARDS, and transparent soap, square type batteries, such as a floppy disk have played an important role in security, moisture, and improve product class, increase the added value products. This device can and cartoning machine joint production

Features:

1. No need to regulate the height of two work tops of the machine when the mould is replaced, no need to assemble or dismantle the material discharge chains and discharge hopper. Reduce the replacement time of the mould four hours to the present 30 minutes.
2. New-type double safeguard mechanisms are used, hence other spare parts will not be damaged when the machine runs out of step without the stop of the machine.
3. Original unilateral hand swing device to prevent from shaking the machine adversely, and the non-rotation of the hand wheel during the running of the machine can secure the security of the operator.
4. New-type double-rotary film cutting cutter can ensure no need to mill the blade during many-year use of the machine, which overcomes the defect that the traditional stationary single-rotary film cutting cutter was easily worn.

Model	GS-25A
Electricity (V/HZ)	220V/(50Hz) 110V/(50HZ)
Packing Material	BOPP film and gold tear tape
Packing Speed	40-80packs/min
Packing Size(Max)	(L)240mm(W)120mm(H)60mm
Power	4KW
Overall Dimensions	(L)2000mm(W)700mm(H)1200mm
