3. The main control circuit takes the single chip developed by our own, digital screen display and controlled by transducer. Perfect inter face between operator and machine. Integrated, direct and convenient operation
4. The capacity and the length of bag take double frequency converter control with stepless speed shift and wide adjustment. It can match well with the former working procedure of production line;
5. Highly sensitive respond photoelectric device can follow automatically and accurately;
6. Independent temperature control for each sealer, and make it beautiful and tight and suitable for a wide variety of flexible packing material.
7. Device for intermission air charging and alcohol spray can be mounted

Technical Parameter:

Model	KD-100
Bagging size range	L 65-160mm
	W 35-90mm
	H 5-35mm
Packing speed	35-225bags/min
Film width	90-220mm
Packing material	OPP, PE, PVC, OPP/OPP, KOP/OPP, PT/PE, Alu-coated film.
Power supply type	220V 50HZ
General power	3.2KW
Machine weight	440kg
Machine dimensions	4000x920x1500mm
