

Carbonated Bottled Drink (CSD) Filling Machine GF-CF-BT

GF-CF-BT full automatic washing-filling-capping monobloc

The machine is designed by our company with stable characteristic, advanced technology, nice appearance and complete function.

The machine is mainly used for washing/filling/capping PET bottle carbonated soft drink.

Technical parameter:

Rating output (500ml):	12000bph
Washing heads:	32
Washing time:	2-2.5s
Filling valve heads:	32
Filling valve speed:	140~150ml/s
Capping heads:	10
Filling temperature:	0-4° C
Suitable bottle type:	PET bottle
Bottle diameter:	D=50~100mm
Bottle height:	150~320mm
Capping torque:	0.6~2.8Nm (adjustable)
Installed capacity:	5.87KW
Compressed air consumption:	0.3Nm ³ /min (when 0.6MPa)
Water consumption:	About 2.5m ³ /h for washing (0.2-0.25Mpa)
Overall dimension:	4000× 2550× 2850
