

Horizontal Packaging Machine TY-HPM250

Packaging various kinds of regular objects like biscuits, pies, chocolates, bread, instant noodles, moon cakes, drugs, daily applications, industrial parts, paper boxes, tray, etc.

Main Function & Features:

1. Double transducer control with flexible bag length cutting. No need to adjust unloading operation. Humanized operation with automatic prompt, saving time and film.
2. Imported MCU on main control circuit, HMI, frequency control, easy and quick parameter setting, Centralized and intuitive operation to fully realize humanized automatic operation control;
3. Clear display of self-diagnosis function.
4. Dual frequency conversion control over packaging speed and bagging length. Digital input of sealing and cutting position to make the sealing & cutting more accurate, nice-looking and stable.
5. High photoelectric eye to track automatically and accurately.
6. Positioned stop function without sticking to the knife or wasting film.
7. Independent temperature control for each seal. PID control suitable for various packing materials.

Specifications:

Model	TY-HPM250
Max. Film Width	400mm
Bag Length	150-400mm
Bag Width	50-180mm
Max. Product Height	65mm
Max. Roll Film Diameter	320mm
Packing Material	OPP/OPP, OPP/PE, PET/PE
Packing Speed	30-150 bpm
Machine Size	4030(L)*770(W)*1450(H)mm
Machine Weight	550kg
Power Supply	220V 50HZ/60HZ
