

## *Semi-Auto Powder Weigh-Fill-Seal Packaging Line*

### **1. Screw metering machine:**

### **Features:**

- \* It completes measuring, bagging, filling automatically. Auger filler drove by servo motor to measure and fill materials.
- \* Suitable to package free-flowing or poor- flowing powder.
- \* Stainless steel 304 contact parts.

Item	Middle type filling machine
Filling range	10-1000ml
Capacity	5-50 bags/min
Accuracy	±1-2%
Total powder	380V 2.5kw 50HZ
Dimension	L500*W830*H900mm
Weight	90kg

## **2. Screw conveyor:**

### **Features:**

This machine adopt screw conveying material, and the storage can be vibrated. it is suitable for conveying various powder and little pellets

### **Technical specification:**

Lifting capacity \_\_\_ 3 cubic meters/hour

Lifting height \_\_\_\_ 2.2m

Lifting volume \_\_\_\_ 3 cubic meter/hour

Specification \_\_\_\_ Making according to the specifications of the buyer

Material \_\_\_\_\_ Carbon steel, stainless steel

Power \_\_\_\_\_ 750w
