

## 5L-10L Bottle Washing & Filling Machine XG-100/J

XG-100/J type pneumatic washer&filler is produced according to the market need, produced with new technology, new technology research and development to be a new type automatic washer & filler for drinking water. All the functions of the machine work by pneumatic drive, and is treated by microcomputer to make the entire programmed full automatic.

### Specification Data:

	Item	Specification
	Rated production capacity	150/500/1000 bottles/hour
		(5 L)
	Max. Production capacity	150/500/1000 bottles/hour
		(5 L)
	Filling volume	5L
	Total input power	1.5kw
	The power of the cap sorter	Sensors gold : 40W*1
	The power of cap screwing machine	Sensors gold 120W*1
	The power of the motor for transmission	YS8014: 550W*1
Power of water pump	Pure water-wash pump	BJZ:0.37 KW 1 (set)
	Filling pump	BLC : 0.37KW 1 (set)
Cylinder stator	Bottle washing, inserting, blocking	MAL32X50-CA (1 piece)
	Bottle washing,outputting, blocking	MAL40X100-CA (1 piece)
	Bottle washing, nipping cylinder	SC40*50-B (1 piece)
	Bottle washing,turning cylinder	SC50*125 (1 piece)

	Bottle filling, blocking cylinder	MAL40X100-CA (1 piece)	
	Filling,holding cylinder	SC40*50-B (1 piece)	
	Bottle filling,nipping cylinder	SC40*50-B (2 pieces)	
	Bottle filling,falling down cylinder	SC40*100 (1 piece)	
	Screwing cover,blocking bottle cylinder	MAL40X100-CA (1 piece)	
	Screwing cover, nipping bottle cylinder	SC40*50-B (2 pieces)	
	Screwing cover, holding bottle cylinder	SC40*50-B (1 piece)	
	Screwing cover,capping cylinder	SC50*50 (1 piece)	
	Pure wash magnetic valve	Xiaoshan 1/2	1 (piece)
	Filling magnetic valve	Xiaoshan 1/2	1 (piece)
	PLC	K7M-DR20UE/G7E-RY08A	
	(routine)Supply voltage	AC : 220V±5%/380V±5% 50Hz	
	Rated current	8A	
	Air compressor demand	0.1 m3 0.17m3/Min 0.8MPa/Cm2	
	Water supply demand	2 m3/H
