

Small Capacity Glass Bottle Cork Alcohol Filling Machine GCGF-series

- 1) It adopts high precision filling valve, with the characteristics of no bottle no vacuum pumping.
- 2) Open gear combined gear box transmission, with on-off device, frequency conversion velocity modulation device extends the speed modulating scope.
- 3) There is self-oil lubrication device, the lubrication points could be lubricated regularly in time, so this machine with high efficiency, low noise and long using life.
- 4) It can according to customer requirements to select different types of bottles.
- 5) The liquid level height in the tanks is controlled by electric PLC program to assure the precise liquid level.

Technical Parameters:

Model	GCGF14-12-4	GCGF18-18-6	GCGF24-24-8	GCGF32-32-10
Capacity (500ml/bottle/h)	2000-4000	4000-6000	6000-8000	8000-10000
Motor power(kw)	3.2	4	5.5	7.5
