

Pillow Horizontal Packing Machine with Tiding System RX620

Characteristics:

1. High precision photoelectric eyes control follow-up, exact seal position.
2. Mail control circuit takes use of single chip and transducer to control drive, well interface for easy operation.
3. Independently control seal temperature, fit for various packing materials with nice and firm seal.
4. With tiding system to make the longer products sent in a line in order to pack conveniently.

Technical parameters:

Model	RX620
	Pillow horizontal packing machine with tiding system
Bag size	L80-340mm, W80-240mm, H20-60mm
Packing speed	15-250bags/min
Total power	3kw
Dimension	4200x1005x1500mm
Products	Biscuit, bread, moon cake, candy, medicine, ordinary papy boxes or salver and solid regulated materials
