

## Linear Capping Machine XGJ-120

This is one of the perfect capping machines with sound quality. The machines supply a capping solution to various shapes of plastic bottles. The latest and developed technologies adapted to this equipment ensure the speed and accurate work stably.

### Structure & Function

- PLC and touch screen adapted to operation system.
- Reject system pick out the unqualified bottle.
- Large volume of cap store.
- Completely comply to GMP standard.

### Parameters

Model No.	Extreme Speed	Diameter of Bottle (mm)	Height of Bottle (mm)	Diameter of Cap (mm)	Height of Cap (mm)	Electricity Supply	Power	Air Pressure	Size of Shape (mm)
<b>XGJ-120</b>	150(bottle/min)	φ25-φ55	45-200	φ30-φ100	10-22	AC220V 50/60Hz	1.2KW	0.5-0.7MPa	3030x1440x2210
