

DCGF32-32-10 PET Bottle Carbonated Drinks Washing Filling Capping 3 in 1 Machine

This Full Automatic Soft Drinks Filling Capping Machine For Glass Bottle is mainly used for carbonated beverage filling capping. The machine is 3 in 1 monoblock composed of washing, filling, capping in one unit. The rinsing head adopts overturning device, and filling system is gravity filling type, it's more stable and reliable.

Features:

1. Air hanging type bottle conveying system makes changing spare parts more convenient.
2. Famous SIEMENS brand PLC, and all the other electrical and pneumatic parts are world famous brand.
3. Special designed stainless steel bottle gripper does not contact bottle neck thread parts, avoiding second contamination.
4. Mass flow filling valve ensures high filling speed and exact filling level.
5. Italy technology capping heads ensure high capping speed and capping precision.

Technical Parameters:

Model	DCGF14-12-5	DCGF18-18-6	DCGF24-24-8	DCGF32-32-10
Rising heads	14	18	24	32
Filling heads	12	18	24	32
Capping heads	5	6	8	10
Capacity based on 500ml PET bottle	3000BPH	5000BPH	7000BPH	10000BPH
Suitable bottle shape	PET bottles with different volume and shapes			
Suitable bottle diameter(mm)	Φ50-115			
Suitable bottle height	160-320mm			
Compressed air pressure	0.3-0.7MPa			
Washing water pressure	> 0.06MPa, ≤0.2MPa			
Motor power (KW)	02.фев	03.май	04.май	6.0
Dimensions(mm)	2300*1600*2500	2600*1920*2550	3100*2200*2800	3850*3000*2850
Weight (KG)	2800	3650	4800	6800
