

YT-300 Full Automatic Rotary Yogurt Coffee Mineral Water Small Bottle Paper Cup Filling And Sealing Machines

This machine is a full-automatic filling and sealing machine, through PLC controller and various pneumatic electronic accessories to achieve automatic cup drop UV sterilization (optional), automatic filling, automatic sealing, automatic coding (optional), automatic capping. The finished product is automatically sent to the assembly line to realize mass production

Technical Parameters:

Model:	YT-300
Working Method :	Pneumatic,work with air compressor
Filling Category	Paste and Liquid
Number of Filling Heads	One or Double
Working Speed:	800-1000 bottles/h or 1600-2000 bottles/h
Cup Diameter	Customised
Filling Range:	10-300ml
Filling Nozzle Diameter:	≥4mm
Filling Accuracy:	≤±1%
Hopper Volume:	30L
Working Pressure:	0.4-0.9MPa
Anti-drip function:	Yes
Can be with Heater Mixer	Yes
Power Supply	220V/110V 50HZ/60HZ
Power	1KW OR 1.6KW
Packing Size:	100*100*175cm OR 120*120*175cm
Gross Weight	300kg OR 380kg
