

KV-160AIZS Automatic Measuring Cup Packing Machine with Weighing Checker

Our equipment can ensure 100% will not clip to the material, on the other hand, our equipment has weighing function. The packaging accuracy of our equipment can be within 0.1g, and then the products that do not meet the set weight can be automatically removed without manual weighing.

- The set weight automatically adjusts the height of measuring cup, the preset weight can be reached within 4 bags.
- Automatic weighing and rejection device for weight detection and sorting of finished products.
- The feeding detection system can track and adjust the insufficient feeding and the change of material density.
- After setting the weight unmanned control can be realized, and one person can manage 20 devices at the same time.

Application & Bag Type

Application: Suitable for packing loose granular materials in small package in medicine, food, condiments, chemical industry. Such as peanut, melon seeds, mung beans, red beans, sesame, plant seeds etc.

Technical Parameters:

| Model | KV-100AIZS | KV-160AIZS |
|------------------|---|-------------------|
| Bag Shape | back sealing /pillow bag/stick sachet/3 side sealing/4 side sealing | |
| Packing Speed | 10-60bags/min | 10-70bags/min |
| Packing Capacity | 1-50g | 1-300g |
| Bag Width | 30-100mm | 50-150mm |
| Bag Length | 30-150mm | 40-200mm |
| Power | 220V/50Hz/1.2kW | 220V/50Hz/1.4kW |
| Optional Device | coding printer/gas-filled device/bag connecting device/punch device/easy to tear gap device | |
