

## *Automatic Instant 3 in 1 Coffee Stick Bag Powder Pouch Sachet Packing Machine SF-280C*

This powder packaging machine JS-280C can pack all kinds of powdery materials, using screw measurement method to avoid errors.

The packing machine suitable for ultra-fine power materials such as powder, flour, corn flour, milk powder chilli powder and soy flour.

### **Features:**

1. Made of stainless steel, rust and durable, easy operation and maintenance.
2. Controller by PLC, operate by touch screen, driving by stepper motor control.
3. Film moving very smooth and have sensor tracking, shape of bag, dimension of bag is very well.
4. Horizontal and vertical sealing temperature can adjustable, better for lot of packaging film.
5. From filling, bagging, printing date, inflatable (exhaust) one-time completion.

**Specification:**

Packing speed	30-80bags/min
Filling Range	1-100g
Bag Size	Width:30-130 mm ; length: 30-170mm
Film Width	Max: 300mm
Power	220V, 50HZ, 1.2KVA
Bag type	Backside seal/3-side seal/4-side seal
Machine overlooking size	(L)1250X(W)950X(H)1920mm (2.28CBM)
Horizontal Sealing	Netted Line / Straight Line(optional)
Packing Material	Laminated film like OPP/OPP,OPP/CE,MST/PE/PET/PE
Machine texture	Carbon steel body and Stainless Steel 304 contact parts, Accuracy: +/-1%
