

Durable Chocolate Foil Packing Machine U-SBSP200D

U-SBSP500 and U-SBSP200D series machines are mainly used for the automatic packing spherical and ellipsoid chocolate. The model uses single layer aluminum foil as packaging material. The unique design ensures aluminum foil closely attached to the surface of product, providing an excellent packing performance.

U-SBSH shake hopper matched with ball/egg chocolate/candy/other material packing machine, high speed and easily operate.

Technical Parameters:

Product name	Full Automatic candy/chocolate folding packing machine
Product model	ZB-FP200
Packing Speed	120-300 pics/min
Main Function	Packing chocolate/candy
Keyword	Candy packing machine
Material	Stainless Steel 304
Product Dimensions	10-35 mm, (Eclipse) Minor D :5-35mm, Major D:5-60 mm
Air Supply	0.6 MPa
Usage	Hard candy,preserved candy,chocolate.etc
