

Sugar Pouch Packing Machine TH-PM-HSA-G

Sugar pouch packing machine for 3-side sealed, back sealed, pillow bag with PP/PE/PET, aluminium foil and etc film roller. It is suitable for filling sugar, corn, bean, wheat, cashew, nut, rice, peanut, dried fruit, potato chips, popcorn, snack, etc.

Product description

1. Sugar pouch packing machine is used for sugar weighing filling into the 3-side sealed, back sealed.
2. The Sugar pouch packing machine can complete weighing, filling, bag forming, date coding, bag sealing.
3. All parts SUS201 food safety grade.
4. Automatic weighing filling, which makes the weighing precision higher and the packing speed faster.
5. Bag type: toothed cutting, flat cutting.

Features

1. GMP standard, tally with CE certificate, ISO certificate standard.
2. This machine configured with ribbon date printer: it is much reliable for date coding, much efficient than manual date coding.
3. Eye mark: check the film roller length, ensure sealing regular.
4. Sugar pouch packing machine can work with complex film, PE, PP material.
5. Easy to operate, using Siemens PLC control.
6. With the function auto filling, measuring, bag forming, sealing and cutting.

Parameter:

Model	TH-PM-HSA-G
Power supply	0.6Kw, AC220V, 50Hz, 0.6-0.8Mpa
Machine size	62 cm * 52 cm* 145 cm
Machine material	food grade stainless steel 201
Packing speed	10-20 pouches/min
Pouch size	Width: 2-15 cm
	Length: 1-22cm (can be adjustable)
Pouch type	Back sealing pouch, 3-side sealing
Pouch material:	Laminated film, PE, PP etc.
Weighing range	1-200 g
Weigh Precision	± 0.2g
