

PGS-720D Coffee Powder Packing Machine

Powder packing machine is mainly for spice powder, coffee powder, milk powder etc into small bags, by matching with weigher, or liquid pump.

Bag type: making pillow bag, vertical gusset bag, hanging bag.

Technical advantage

1. PLC control with touch panel-step by step instruction
2. Equipped with servo winding system, pneumatic control system.
3. The maximize to improve the whole machine's precision, reliability and stability.
4. Use intellectual temperature controller, the high temperature control to ensure the neat sealing.
5. The perfect automatic alarm safety protection, little waste. This machine completes the whole packing procedure of measuring, feeding, bagging, date printing, charging (exhausting), products out-putting, counting automatically.

Product Parameter

Model	PGS-720D	
Name	Powder Packing Machine	
Packing weight	10-300g	10-5000g
Packing speed	10-60bags/min	10-40bags/min
Packing precision	±0.01-0.1%	
Main power/voltage	1KW/380V	2.5KW/380V
Dimension	(L)510*(W)585*(H)930mm	(L)600*(W)1250*(H)2000mm
The weight of switchboard	100KG	200KG
