ZH-DW400 Sensor Food Pouch High Speed Checkweigher Metal Detector

It is suitable to check weight of various products, over or less weight will be rejected out, qualify bags will be passed to next equipment.

Feature

1. High speed, high accuracy online weight checking
2. Advanced and proper rejection system
3. Human-main friendly 7" HMI panel operation
4. Strong anti-vibration and interference design
5. Special tailor made design and high integrated programme with scanning and printing system
6. Top-level craft, professional mechanical design.
7. Strong stainless steel structure; water-proof design.
8. Touch screen, friendly operation interface.

Technical Specification:

Model	ZH-DW400
Weighing Range	0.2-10kg
Scale Interval	1g
Best Accuracy	±1g
Max Speed	105pcs/min
Belt Speed	70m/min
Product Size	550mm (L)
	390mm (W)
Weighing Platform	650mm (L)
	400mm (W)
No. of Sorting Segment	2 Segments or 3 Segments
Rejector	air blow, Pusher, shifter
Power Parameter	220V/110V 50/60Hz
Protection Level	IP30/IP54/IP66
Frame Material	SUS304
