

EMT1100 Coffee Filling And Packing Machine

1. The inner bag packing machine and outer bag packing machine can be used separately, which is flexible and practical
2. The outer bag is packaged with heat-sealed composite material, and the pattern can be customized according to customer requirements, so as to automatically cut off the calibration position
3. Nitrogen charging device can be added to extend the retention period and freshness of the product
4. Configurable production date random printing device, making production more standardized and consumption safer Scope Applicable scope Black tea, green tea, herbal tea, health care tea, formula tea, eight treasure tea, Chinese medicine pieces and other products of automatic bag bubble packaging.

Technical Parameters:

Measuringrange	1-10g
Metering accuracy	±0.15g
Measurement method	4 heads tea weighter
Packaging speed	30-40bags/min
Packing method	Inner bag:3 sides sealing Outer bag:hot sealing
Packing size	Inner bag:120mm (48*50 mm) outer bag:≥80*90 mm

	<p>Inner bag:140mm (58*60 mm) outer bag:≥ 80*100 mm</p> <p>Inner bag:160mm (68*70 mm) outer bag:≥ 90*110 mm</p>
Packaging	<p>Inner bag: ultrasonic sealing materials such as nylon mesh cloth, non-woven cloth, PLA corn fiber, etc</p> <p>Outer bag: heat-sealable composite material</p>
Material specification	Inner bag:120 mm ,140 mm ,160 mm outer:≥ 160 mm
Unwinding quantity	2rolls
Unwinding diameter	≤Φ 400 mm
Inside of paper roll	Φ 76 mm
Number of operators	1 worker
Air pressure	≥ 1.2 Mpa
power	3.2 Kw
Size	<p>Inner bag machine:L 1600 * W 800 * H 1900 mm</p> <p>Outer bag machine:L 1100 * W 950 * H 1620 mm</p>
Weight	950 Kg
