

## *Linear Weigher (Large Hopper) MK-AX2-2-1*

The linear weigher (large hopper) features two large hoppers, with each hopper capable of weighing items at a range of 1000-12000g. When paired with packaging machines, this linear weigher weighs as much as 25 bags per minute. It is primarily used for weighing tiny granules with a diameter below 20mm.

The linear weigher (large hopper) makes it easy to change the product or target weight, and is applicable for meeting customer requirements in packaging granule mixtures or different target weights.

### **Technical Parameters:**

- Model: MK-AX2-2-1;
- Weighing range: 1000-12000g;
- Weighing accuracy:  $\pm 1-10$ g;
- Max speed: 25bags/min;
- Bucket volume: 15000ml (single hopper);
- Recipe number: 20;
- Mixture components: 2;
- Power: 220V/1000W/50/60Hz;
- Size: L1065\*W1050\*H1250.
