

XZG-1 Cap Screwing (Capping) Machine

Suitable for capping for bottles in different types and different specifications.

It adopts the torsion capping cover, so that the capping device will not hurt the cap. The 3-knife rolling cover is applied to make the adjustment of the pressure easier.

Technical Parameters

Production capacity(pcs/min)	40-60
Rate of cap covering(%)	≥ 98.0
Qualified rate of capping(%)	≥ 98.0
Power supply	380V 50Hz
Power(kw)	1.5
Weight(kg)	400
Overall dimensions(L × W × H)(mm)	2,440 × 1,300 × 1,600
