

# Markotec labeling system

## *Bottom and Body Pick and Place Labeler*

Suitable for precise labeling on the surface of various cylinder containers which is applied to the bottom of pen-shaped containers (lipstick, lip gloss, mascara) in the cosmetic industry labeling.

### **Features**

- The two label applicators are applied labels on the bottle body, top cap, or bottom at the same time.
- The adjustable rotating label applicators head can adjust the angle according to the shape of the product for accurate labeling.
- The product is positioned by the fixture and then applied labels for better labeling accuracy.
- Driven by servo motor, the speed can be automatically matched (linked).
- Standardized and modular design for easy maintenance.
- Color touch panel and PLC control system. Easy to learn and operate.

### **Optional Accessories**

- Input & output turn table
- Various printer options (hot stamping, inkjet printer, thermal transfer printer, laser printers)
- The labeler can be flexibly configured in IN-LINE / OFF-LINE.

## Specification

<b>Model</b>	<b>Bottom and Body Pick and Place Labeler</b>
<b>Labeler Line Speed</b>	30m/min
<b>Labeling Speed</b>	About 60 Bottle/min
<b>Accuracy</b>	±1mm
<b>Label Width</b>	S(50mm)/ M(100mm) / L(140mm)
<b>Object Size</b>	Max. Ø30mm, L100mm
<b>Label Roll</b>	300mm
<b>Machine Dimension</b>	2400mm(L) × 1100mm(W) × 1500mm(H)
<b>Power</b>	AC 220V 50/60Hz Single Phase; 2kW
