## *ZS-XG16D Automatic Glass Bottle Cap Cork Press Machine with Dust Cover*

This automatic bottle-capping machine is designed with a dust cover, which can prevent from pollution during producing. It can feed cork and press cork easily. This machine can work with automatic capping machine, labeling machine to realize full-automated production.

## **Technical Parameters:**

- Bottle Height:30-300mm
- Cap Diameter: Customized
- Bottle Diameter:20-100mm
- Working Speed:20-60 bottles/minute (depending on bottle and cap size and shape)
- Working Voltage:AC220V/110V 50- 60HZ
- Working Pressure:0.4-0.6MPa
- Machine Size:1000\*900\*1860mm
- Machine Weight: About 243kg
- Packing Size:1970\*1020\*2030mm
- Package Weight: About 350kg
