

## ***XFG-Y Automatic Premade Pouch Liquid Filling And Packing Equipment***

Automatic Premade Pouch Filling And Sealing Machine is used for the flat bag, standup bag, bag with zipper.

Application: This machine is suitable filling and sealing for the liquid and paste, such as washing liquid /detergent, yellow wine, sauce, vinegar, juice, beverage, ketchup, chilly sauce, etc.

### **Character:**

1. While the bag size is different, it is easy to operate the machine by using the handle to adjust the width of the bag-nipping claw.
2. By adopting the precise and stable bag-nipping structure and eight working station. The machine has higher speed and wider application.

### **Technical Parameter**

Capacity	30-50 bag/min, according to product type and characteristics
Bag Size	(L)100-300mm (W)100-200 mm
Filling weight	Up to1000 g/bag (max)
Bag sealing	Sealing by heat and pressure
Power supply	AC380V±10%, 3-phase 50Hz
Power Consumption	2.0KW
Air Consumption	0.2m <sup>3</sup> /min at 5-8 kgf/cm <sup>2</sup> Air compressor is supplied by customer
Machine Weight	1200kg
Dimension	W×L×H 1140×1500×1560mm
