

CKLF500 Powder Sachet Packaging Machine

This automatic chili powder sachet packing machine can automatically complete bag making, measuring, filling, inflating, counting, sealing, code printing, material giving, stopping in certain quantity, fixed-bag cutting and same cutting, with CE Certification. The spice masala packing machine can be used to pack different kinds of powder.

Features:

1. High accuracy, high efficiency without crashing the materials.
2. Adopting double high precision sensor and intelligent meters, Error automatically amended, trouble self-inspected, packaging speed display;
3. Adopting famous brand process switch and air equipment, suitable for package of foodstuff, daily chemical articles seasoning and medicine. This automatic chili powder packing machine is easy to operate, and working stabilization.

Application

This powder packing machine adopts correcting system controlled by microcomputer; owing to a response signal is handling and pass through. It can pack milk powder, soy milk powder, sesame walnut powder, spice power, glucose powder, masala, turmeric powder, ginger garlic powder and so on.)

Microcomputer control can accomplish whole set to synchronization, sack length, position fixing, voluntarily follow the tracks of light-mark and voluntarily diagnose trouble and show to screen.

Technical Data

Model	CKLF500
Voltage and Powder	220V/1.8kw
Packing range	<1000ml
Film width	180-420mm
Bag size	L:30-300mm
	W:80-200mm
Machine size	820*980*2100mm
Weight	580kg
Film thickness	0.03-0.10mm
