

DP12/25 Single Punch Tablet Press

It is a continuous automatic tablet press for pharmaceutical, chemical, electronics, food, laboratory and other departments to press powder and granular raw materials into sheets.

Features

1. Adopt a number of novel designs to ensure a more standardized production process.
2. Filling depth and sheet thickness can be adjusted continuously, and the functional indicators reach the level of imported machines.
3. Four-column structure, so that the machine has a larger operating space.
4. Integrated transmission mechanism, making the machine run more stable and low noise.

Technical Parameters

Model	DP-12	DP-25
Punch quantity (set)	1	1
Max.tablet diameter (mm)	12	25
Max.output (tablets/minute)	60	60
Max.main pressure (kN)	50	50
Max.filling depth (mm)	20	20
Max.tablet thickness (mm)	8	8
Motor power (kw)	220V/50Hz,1.1KW	220V/50Hz,1.5KW
Overall size (mm)	550*450*750	580*500*830
Weight (kg)	100	150
