

YB-FXJ5050 Top and Bottom Case Sealer Box Sealing Machine

The box sealing machine is equipped with a cutter, press plate, and brush, allowing a convenient, fast device. 180W high-power motors ensure high-speed working. The height of the machine's stand is adjustable, and four lockable wheels ensure its stability. They are widely used in home appliances, textiles, food, department stores, express delivery, and other industries.
