

HZNF-30A Semi-auto Plastic Tube Filling Sealing Machine with Ultrasound

This machine is a high technical equipment, it is an ideal equipment for plastic tubes and multiple tubes filling and sealing in cosmetic, pharmacy, foodstuff, adhesives etc industries.

Features:

1. Automatic filling of liquid or paste, sealing tubes, batch number printing, include manufacture date.
2. Features of rational striation, complete function, easy operation, accurate filling, stable running, as well as low noise.
3. The body is made of 304 stainless steel and has a long service life.
4. Using ultrasonic sealing, the sealing is more stable.

Technical Parameters:

Model	HZNF-30A
Tube Material	Plastic tube laminate tube
Tube diameter	10-50mm
Tube length	80-250mm (Customizable)
Filling range	5-600ml (Adjust able)
Filling accuracy	≤±1%
Product capacity	10-20 pcs/min
Air supply	0.55-0.65MPA 0.1m ³ /min
Motor power	2KW(380V/220V 50HZ)
Heat sealing power	1.5KW
