

ENSULE

Our ENSULE range of machines are Fully Automatic Capsule Filling Machines to fill powders (in the form of slugs, Pellets or mini tablets) in hard gelatin capsules. These are high speed, high performance machines that incorporate the latest international design and are built with precision using most appropriate materials and up-to-date manufacturing systems. Different models are available for various output requirements.

It is an extremely durable and reliable machine that fills dosages to the highest accuracy and is capable of filling all sizes from #00 to #5 of capsules. It is also easy to clean and meets GMP standards.

Features

- PLC & Touch Screen controlled machine
- Product handled: powder as standard. Pellet and tablet feeding devices optional
- Dosing System: Tamping (slug formation through progressive compression)
- Quick & easy fill weight adjustment
- Tamping System for powders ensures accurate fill weight – accuracy of $\pm 2\%$
- Powder sensor maintains constant level of powder in the dosing chamber
- Audio alert on capsules running low in hopper
- Line Machines like Empty Capsule Sorter and Elevator, Powder Charging Systems, Filled Capsule Polisher and Empty Capsule Rejection, Metal Detector, Damaged Capsule Rejection etc. are available as per customer requirements.

Specifications

Model	ENSULE-400	ENSULE-750	ENSULE-1500	ENSULE-2000
Rated Output (powder) per hour	25 000	45 000	90 000	120 000
Rated Output (pellets) per hour	20 000	35 000	70 000	95 000
