

Premade Packaging Machine GDD-1-300

The rotary packaging machine is characterized in compact structure and easy operation. It is ideal for Ideal for various applications which are suitable for any type of pre-made pouches.

The pre-made packaging machine is characterized in compact structure and easy operation.

It is ideal for Ideal for various applications which are suitable for any type of pre-made pouches.

This series adopt bag magazine at the top which is adjustable. It enables one single machine to satisfy the packaging demand of various bag shapes and sizes.

- Adopt PLC control, driven by cylinder, low error rate and easy maintenance.
- Equipped with a variety of electric induction components to ensure smooth operation and accurate packing.
- Equipped with vacuum pump for vacuuming function.
- Wide range of applications, suitable for different width of products and different sizes of bags.

Parameters:

Model	GDD-1-300
Voltage (V/Hz)	AC 220/50
Sealing power(w)	500
Packing speed(bag/min)	6-15
Temperature range(°C)	0-300
Maximum weight of products(kg)	≤2
Bag Size (mm	100≤width≤300 100≤length≤430
Dimensions(l*w*h)(mm)	1772×676×1518
Net weight(kg)	315
