

HIJ-25 High-speed Automatic Bundling Machine

HIJ-25 high-speed automatic bundling machine is our new product which research and development on the base of foreign technology and filled the gap of packing after high-speed cartoning machine for all pharmaceutical enterprises. It can joint with box open and filling to finish the whole packaging line after cartoning. It adopts high quality aluminum and advanced design for machine body and parts, imported brand electrical components, PLC touch screen to ensure the machine running more stable and convenient used in pharma, food and cosmetics industries. It complies with CGMP standards.

Technical parameters

Packing form: wrapping strip.

Bundling speed: 15-20 packs/min (150-250 boxes)/min.

Packing method: 1*10 2*5 3*5 1*15.

Bundling size: - max 240*150*300(MM).

- Min 50*60*90(MM)

Package size: PE film(width 30-80mm,thickness 30-80um).

Power supply: 220v/50Hz.

Total power: 1.5kw.

Air pressure: 0.6-0.8MPa.

Weight: 560kg.

Transportation size: 1200*250*800(MM).

Machine size: 1100*800*1700(MM).
