

ETP-80 4 head Weighing Packing Machine Grain and Nuts Herbal Tea Packing Machine

Description:

1. It is suitable for the measurement and packaging of loose tea leaf, CTC tea and other granulate raw material in the food, pharmaceutical, chemical and cosmetic industries.
2. It can automatically complete bag making, measuring, cutting, sealing, slitting, counting, and can be configured to print batch numbers according to customer requirements.
3. The clock touch screen operates PLC control, and the drive stepping machine has long control potential, stable performance, convenient adjustment and accurate detection. Intelligent temperature controller, PID adjustment, to ensure that the temperature error range is controlled within 1 °C.

Technical Parameters

Model:	ETP-80
Bag Size:	length:40-250mm width :40-200mm
Packing Speed:	20-60 bags/min
Measuring Range:	20-1000g
Motor Power:	AC220V, 50-60Hz,1.5kw
Machine Dimension:	960*720*2100mm
Machine Net Weight:	350kg
Air compressor source	≥0.6m ³ /min
