

MD-181 Filter Coffee Bag Packaging Machine

MD-181, the standard model, is suitable for coffee powder, small granules materials, etc. It is specially designed for drip coffee bag packaging, three side sealing and the nicely shaped bags are popular all over the world. This drip coffee bag packing machine with functions for bagging, measuring, filling, sealing, cutting, counting, printing, etc. This filter drip coffee packaging machine adopts ultrasonic sealing for the inner bag and does not affect the taste of coffee, working stable and safely.

Features

1. Speed of coffee packaging machine : 45 bags/min.
2. With ultrasonic sealing technology, the drip coffee bag packing machine creates aesthetically pleasing and high-quality coffee bags.
3. A shaped tear cut on envelope bags enhances the usability of the drip coffee packaging machine.
4. The drip coffee packaging machine features an adjustable automatic weighing system for precise measurements.
5. The drip coffee bag machine integrates a screw filler system, guaranteeing accurate and consistent weight control.

Parameters

Model	FG-181		
Measurement Method	Screw		
Production Efficiency	30-45 bags/min		
Packing Weight	5-15g/Pack (Special Specifications Can Be Customized)		
Packing Accuracy	±0.2g (Depending On Material Conditions)		
Common Inner Bag Dimensions	74*90mm		
Common Outer Bag Dimensions	120*100mm		
Inner Bag Sealing Method	Ultrasonic Sealing		
Outer Bag Sealing Method	Heat Seal		
Power Supply	3.5kW/220V	Air Consumption/Pressure	6-8bar/0.6mm³/min
Machine Dimensions (L.W.H)	1558*891*2691mm	Machine Weight	650kg
