

Automatic Chocolate Envelop Fold Packing Machine

Packing machines can realize automatic operation and match with various feeding methods to meet the requirements of different products. It reduced the number of workers and reduced wage costs.

Beautiful packaging style, good consistency, and high efficiency do not affect the quality of chocolate, especially suitable for pure chocolate

Application: Square, rectangle, trapezoid chocolate, candy, biscuit, pigment block, tea block.etc
Packing style: single layer, double layer with the gluing system. The automatic chocolate packaging machine greatly improved the production efficiency, to ensure the quality of packaging.

Technical Parameters

Model	SL-SBZB100D
Key Selling Points :	High Accuracy, Long Service Life, High Productivity
Driven Type :	Electric Driven
Power Supply :	220/380/440V 50Hz, 3PH (Customized)
Application :	Food, Medical, Chemical, Candy, Chocolate
Product Size :	Length:10-80(mm) Width:4-45(mm) Height:4-35(mm)
Product Shape :	Rectangle, Square, Trapezoid, and so on
Packaging Material :	Film, Foil, Wax, Bopp
Packing speed :	200-260 pcs/min
Core Components :	Motor, PLC, Gear, Bearing, Gearbox, Touch screen, Inverter
Warranty Service :	One-Year Warranty, Lifetime Service
