

## *LP-2 High Speed Multi-function Bottle Unscrambler*

Pour the bottles into the buffer hopper and the machine sort the bottles in upwards position and automatically transmitted to conveyor orderly.

- Used for various kinds of plastic round bottles, squared bottles, special-shaped bottles and tube bottles.
- Highly speed of output can meet the requirement of high speed production.
- Bottle quantity control system, to avoid overdose and friction.
- With inverted bottle, anti-bottle automatic detection and elimination function, to ensure no unqualified bottles go into downstream working step.
- Fully automatic operation, intelligent joint control with the next process, without special operation, saving labor.
- Convenient replacement.
- The control chip is imported from the United States, and the photoelectric sensing element is produced in Taiwan.

### **Parameter Information**

Model	LP-2
Capacity	40-150 Bottles per minute
Voltage and power	220V/50HZ 0.6kw
Size	2080×1200×1600mm
Main material of equipment	SS304
Main material of equipment	MCU
The compressed air	0.6 Mpa
Weight	430kg
