

200L Movable Liquid Heating Homogenizing Mixer

Homogenizing mixer machine has high-speed disperser, mixing and disperse viscously, solid and liquid, etc. various kind of raw material will be dissolved which is such as AES, AESA LSA, during liquid production which can save energy consumption and shorten production the and shorten production period. To produce liquid washing products, like shampoo, liquid soap, bath shower, dishwashing, hand washing, etc.

Parameter

Model:	HWHM-MT-200L
Working capacity:	200 Liters
Heating method:	Electric 27KW
Mixing type:	Upper frame oar scraper mixer
Mixing motor power:	2.2KW, Siemens motor
Mixing frequency inverter:	2.2KW
Mixing speed:	0-65rpm
Homogenizer type:	Bottom homogenizer
Homogenizer power:	4KW, Siemens motor
Homogenizer frequency inverter:	4KW
Homogenizer speed:	0-3000rpm(50Hz)/0-3600rpm(60Hz)
