

## *Liquid Pouch Filling Machine / Water Filling Machine GDR-100EYT*

Suitable for pickle, plum vegetable, mushroom, dried turnip, ginger, pickled vegetable, jellyfish, fish sauce, etc.

### **Main characteristics & Structure features**

1. The whole machine is a ten-station structure, and its operation is controlled by PLC and large-screen touch screen, so it is easy and convenient to operate
2. Automatic fault tracking and alarm system, real-time display of operation status;
3. Mechanical empty bag tracking and detecting device can realize no bag opening, no blanking and no sealing;
4. The main drive system adopts variable frequency stepless speed regulation control and full CAM drive, with stable operation and low failure rate (the sealing adopts CAM drive, which will not lead to unqualified sealing due to unstable air pressure);
5. Replacement of product specifications with a key replacement, better improve work efficiency.
6. The parts of the machine that come into contact with materials or packaging bags are processed with stainless steel or other materials that meet the requirements of food hygiene to ensure the hygiene and safety of food.
7. With liquid mixing device, to prevent the precipitation of micro - particle materials, with liquid level control device.
8. The whole machine design conforms to the national GMP standard and has passed the CE certification

## Specification

<b>Model</b>	<b>GDR-100EYT</b>
Packing speed	6-65 bags /min
Bagging size range	M90-210mm , L 120-300mm
Packing type	Bags(flat bags, doypack ,zippered bags, reticuleM bags)
Compressed air quantity	L5-7kg/cm2 500L/min
Packing material	Single layer PE film, complex film, paper film and other kinds of composite membranes
Machine gross	1000kg
Power type	380v, total type:3.5KW
Out-dimension	2100*1280*1580mm
