Automatic Hand Cream Facial Cleanser Ointment Soft Tube Filling Sealing Machine

This soft tube filling sealing machine is designed for filling thick liquid/paste into soft tube and sealing them, extra coding function can be realized. This ultrasonic filling sealing machine is suitable for hand cream, toothpaste, facial cleanser in cosmetics and daily chemical industries.

Main Feature

- ▶ Suitable for filling liquid or paste like cream, shampoo, body lotion, etc.
- ▶ The tube holder can be customized according to tube size.
- ▶ Can realize filling, ultrasonic sealing, date coding and trimming at one machine.

Parameter

- Voltage: 220V/110V 50-60Hz
- Power: 2.6KW
- Hopper Capacity: 30L
- Filling Range: 6-60ml / 10-120m l / 25-250ml
- Filling Accuracy: $\pm 1\%$
- Sealing Speed: 18-28 pcs/min
- Sealing Diameter: 16-50mm
- Sealing Height: 70-210mm
- Sealing Method: Ultrasonic Sealing
- Ultrasonic Frequency: 20KHz
- Air Pressure: 0.6Mpa
- Application: Aluminum-plastic soft tube/Plastic soft tube
- Machine Material: Stainless Steel
- Machine Weight: About 410kg
- Machine Size: About 1615*1400*1590mm
- Package Weight: About 555kg
- Package Size: About 1610*1760*1860mm
