

MT-100 Semi Automatic Labeling Machine for Round Bottle

The MT-100 High-Speed Semi Automatic Wrap-Around Labeling Machine is engineered for efficient, precise labeling of round containers such as bottles, cans, and jars in food, beverage, pharmaceutical, and cosmetic production lines. It delivers labeling speeds of 30-150 pieces per minute with a high labeling accuracy of ± 1 mm, handling label sizes from 10-150mm in length and 10-100mm in height. With robust stainless steel body, PLC touch screen control, and adjustable guide rails, this machine adapts seamlessly to varied product diameters and heights. Its compact footprint (approx. 1300×900×970mm) makes it suitable for workshops with limited space while still offering long service life and user-friendly operation. Whether you're labeling PET-bottles, glass jars, or metal cans, the MT-100 provides consistent, professional results with minimal

Technical Parameters

Model	MT-100
Power Supply	220V 50HZ
Conveyor width	80mm (can be customized according to your bottle size)
Label speed (maximum)	20-40 pcs/min
Label size	Height: 15-100mm;
	Length: 20-180mm
Bottle Diameter	$\phi 15-80$ mm
Labeling precision	± 1 mm
Machine size (L*W*H)	1300*900*970mm
Machine Weight	69KG
