

JS-220Y Automatic Vertical Small Sachet Ketchup Tomato Paste Sauce Packing Machine

The small liquid packing machine is suitable for the packaging of liquid and pasty materials in the food, daily necessities, chemical and other industries.

Food: ketchup, tartar sauce, barbecue sauce, chili sauce, honey, condensed milk, soy sauce, vinegar, edible oil, jam, juice, enzymes, etc.

Daily necessities: laundry detergent, shower gel, shampoo, bleach, lubricant, etc.

Feature

1. The machine can automatically complete a series of work processes such as measurement, bag making, filling, sealing, and cutting.
2. Using brand PLC control system and color touch screen, the machine operation is simple and efficient.
3. Noiseless stepper motor, improves working stability and reduces vibration and noise.
4. Made of stainless steel 304, it ensures that the packaged products remain clean and the machine has a long service life.
5. Use a variety of automatic alarm protection functions to minimize losses during the packaging process.

Specification

Packing Speed	30-40 bags/min
Filling Range	1-200ml
Bag Width	30-100mm
Bag Length	30-170mm
Film Width	MAX.220mm
Packaging Material	OPP/CPP, OPP/PE, PET/PE, aluminized film, etc.
Machine Size	1100(L)*900(W)*1700(H) mm
Voltage	220V, 50/60Hz
Power	1.4Kw
Machine Weight	400KG
